## TO MY FRIENDS AND CUSTOMERS:

Please accept this, my catalog for season of 1933, with my best wishes for the New Year and with thanks for your much appreciated patronage of last year.

We appreciate your confidence in us in the past and assure you that we will do everything possible to deserve it in the future. Wishing you and yours a Happy, Prosperous and Successful Year,

*Yours sincerely,*

RALPH W. STERLING.

## DIRECTIONS

By carefully reading and observing the following directions, mistakes will be largely avoided.

Please use the enclosed Order Sheet and self addressed envelope if possible. If you need more let me know and I will be glad to send more to you.

Write your name, address and shipping directions plainly.

Always send the cash with your order, unless otherwise agreed upon. Money may be sent by P. O. Money Order, Bank Draft or Registered Letter. Stamps may be sent for amounts under \$1.00, but be sure to put in three-cent stamps, wrapped in waxed paper.

We pay the postage on all seeds sold by the pkt., oz., and  $\frac{1}{4}$  lb. Quantities over that are priced net, to be shipped by parcel post, freight or express, at purchaser's expense, unless otherwise stated.

If you desire your seed sent by Parcel Post, add 7c for the first lb. and 1c for each additional lb. of your order, allowing 2 lbs. extra for package. For amount of postage on plants see Plant Department. These rates are for anywhere on Long Island.

By pricing my seeds net, postage extra, you get your seeds delivered for less money than if I quoted a Postpaid price as the 7c per lb. extra would have to be counted in and added to each single lb. priced.

$\frac{1}{2}$  lbs. will be sold at lb. rates;  $\frac{1}{2}$  bu. at bushel rates.

No charge is made for packing or packages.

NOTE:—In all orders received before April 1st we include trial packets of different kinds of seed, the number of packets depending upon the size of your order. If you find any of these of particular value we would be pleased to hear of it.

If you cannot use this catalog or receive more than one will you kindly pass it on to someone interested. Thank you.

## SEED DEPARTMENT

"Burpee's Seeds grow and are the best that grow." We carry Burpee's Garden and Flower Seeds and you can purchase them from us as reasonable as you can get them elsewhere.

### "STERLING STRAIN"

Follow the mark of "Sterling." We are always looking for the best strains of seed and where we find a superior one we place the name of "Sterling" on it. All other seeds listed are direct from Burpee unless otherwise noted.

## ASPARAGUS SEED

MARY WASHINGTON. Re-selected, Peligreed Seed from the Pedigreed Seed Farm. The only kind of asparagus to raise. Blight proof, of highest quality and heaviest yield. Prof. Norton's very finest production in Asparagus Breeding. Pkt., 10c; 1 Oz., 40c; ¼ Lb., \$1.50; ½ Lb., \$2.90; Lb., \$5.50. Postpaid.

We have 15,000 or more Mary Washington, 1 year old roots, for sale this Spring, grown from this Re-selected Seed.

See page 42 for prices on Asparagus Roots.

*Eat Onions for Health!*

Scientists have found in onions some very valuable ingredients. They claim that onions promote digestion to a marked degree.

Cutchogue, N. Y., Dec. 1st, 1932.

The grading and seeding at my new home is very satisfactory. The seed (Sterling Lawn Grass) was sown the very last of August. Had some real dry weather in September but I mowed the lawn the first week in October and it was heavy mowing, and a beautiful lawn. Our evergreens and shrubs are also very satisfactory and they set our house off nicely.

Sincerely,

GEORGE MOHLFELD.

Peconic, L. I., Feb. 1st, 1933.

I use a special fertilizer on my Lima Beans and I use Sterling Strain Fordhooks. Last year from the first acre of early Limas I picked 200 bags at the first picking.

GEORGE BERKOSKI.

Gradus.

PEAS

GRADUS and THOMAS LAXTON grow tall vines and very large pods. The LAXTONIAN and LAXTON'S PROGRESS are dwarf in vine and have large pods and lots of them. These are the four best sorts for market.

The RADIO, BLUE BANTAM, LITTLE MARVEL, CARTER'S DAISY and TELEPHONE are the gardener's favorites for table use and for canning. Sow these five kinds together and they will follow each other through the season.

I have nearly 100 bushels of choice new crop pea seed this season. The prices quoted below for bushel lots are cash prices. Add 50c per bushel for time. Even though Peas do not pay as a market crop, the vines make fine green manure for Cauliflower or Brussels Sprouts.

1 Lb. of Peas will plant 100 ft. of row.  
1 to 2 Bu. to the acre.

## GRASS, CLOVER and ALFALFA SEED

Prices liable to change without notice.

Terms strictly cash.

I make my prices just as reasonable as is possible consistent with the quality. It is the very last fraction of 1% in purity that costs money. I believe that it pays big returns, too, as it is truer in seeds than in anything else that "the best is none too good."

In sowing Timothy alone without Clover use 15 to 20 Lbs. to the acre. If your land is sour and Grass and Clover does not do well as a rule, a little lime sown on top of the ground and harrowed in before sowing the seed would be a great help.

We do not handle foreign grown Clover Seed. All our Clover and Alfalfa Seed is grown in the U. S. A. and in the North West.

Special prices on bag lots. Ask us about them.

## LAWN MAKING

Our Lawn Grass Seed is exactly what we represent, recleaned and free from weeds, and we sell many hundred pounds all over Long Island.

Loosen the soil in which a new lawn is to be made to a depth of at least five inches, and lighten it with humus or several inches of sand, compost or manure if it is heavy and inclined to bake. Apply fertilizer liberally, either Sheep Manure, Bone Meal, V. C. Fairway or a commercial fertilizer. Peat Moss is also good.

Sow in the early spring when cool weather and ample rainfall will insure complete germination and a good start for the seedlings before hot dry weather comes. If seeding must be delayed, special precautions must be taken to prevent the ground drying out. Early fall is a very desirable time to plant.

See that the seed is well covered. Rake it into a new seed bed and roll so that the soil is firmed over the seed. Where seed is sown on an old lawn always cover it with a top dressing of sand or soil and fertilizer. Seed thrown on the top of hard ground has no chance to grow and will merely wash off.

We will do your grading and seeding for you at a very reasonable cost.

January 9, 1933.

We are pleased and satisfied with our Evergreen Planting.

REV. ROBERT J. KENT.

## FIELD SEED

Prices liable to change without notice.

**SEED OATS.** Scottish Chief. Use 2 to 4 Bu. to the acre. The best for this section. Pk. of 8 Lbs., 40c; Bu. of 32 Lbs., \$1.40.

Ithican. Certified. True to name. Very prolific. Pk., 40c; Bu., \$1.30. By the Bag. A very heavy Seed Oat packed in 80-Lb. bags. Per bag, \$1.75; 5 bags, \$1.60 per bag.

**SEED WHEAT.** Marquis, the best Spring Wheat. Very prolific, early. Pk. of 15 Lbs., 70c; Bu. of 60 Lbs., \$2.00.

**SEED RYE.** Spring Rye. Fine seed. Pk. of 14 Lbs., 70c; Bu. of 56 Lbs., \$2.00.

**SPRING VETCH.** For a cover crop. Mix with oats. 10 Lbs., 75c; Bu. of 60 Lbs., \$3.75.

**CANADA FIELD PEAS.** For cover crop. Use 1 Bu. Peas and 1 Bu. Oats to the acre. 10 Lbs., 70c; Bu. of 60 Lbs., \$3.50; 5 Bu. at \$3.35 per Bu.

**SOY BEANS.** Early Yellow. Quick maturing. Very productive. 10 Lbs., 50c; Bu., \$2.00.

**SUDAN GRASS.** We find this the best Grass for Pasture that we have ever tried. Use 20 to 40 Lbs. with 1 Bu. of Oats, on one acre of ground. Sow after ground warms up on good soil and this acre will keep one cow in good condition all Summer. Two acres will keep two cows and so on.

For Hay use 20 to 25 Lbs. to the acre, broadcast, or 10 Lbs. in drills and cultivate. Crops of 5 tons to the acre have been grown. Northern seed. Per Lb., 8c; 10 Lbs. or more, at 7c per Lb.; 100 Lbs. at \$6.00.

*Warning.* Do not sow your Soy Beans, Sudan Grass or Spring Vetch until your ground is warmed up a little. If sown too early they will fail to germinate, or if they do sprout, they will not thrive.

**BUCKWHEAT.** Japanese. Does well on sour soil. Best for this section. Very prolific. Very large grain. 10 Lbs., 50c; Bu. of 48 Lbs., \$1.50; 5 Bu. at \$1.40 per Bu.

**RAPE SEED.** Dwarf Essex. Fine for Ducks. Lb., 12c; 10 Lbs. or more, at 10c per Lb.; 50 Lbs., \$4.00.

**BARLEY.** Fancy Six Row. Makes good pasture. Does not rust like oats. 10 Lbs., 50c; Bu., \$2.00.

## HUMUS

This is one of the best Lawn Makers, especially for poor soils.

Mix 100 Lbs. of this Dry Humus to a plot 20 by 20 and see the wonderful way the grass will grow where it is used. Also fine for spading in your flower beds, only use it in a larger proportion than above.

## PLANT DEPARTMENT

### STRAWBERRY PLANTS—Sterling Quality

My Strawberry Plants are raised on fresh ground, well fertilized and carefully taken care of. They are well rooted, healthy and true to name. We have tried out many, many kinds and find that only a few kinds seem to do well in this section. Such a kind is the Premier. This kind comes early and stays late, yields heavy and keeps its size well. The Corsican is very popular for mid-season, being large, sweet and very prolific. We have yet to find an extra good late berry for this section. Gandy is good, but has its faults. Chesapeake is a very shy bearer with us, but extra in quality. All plants are from a new bed. No old plants are ever sold by me.

25 100 300 1000

PREMIER or HOWARD, NO. 17. The best kind I have ever tried for table use or for market. Begins to ripen early; large, long red berries and keeps right on through the longest season of any berry found yet and keeps its size and color well, right up to the end of the season. Everybody is praising Premier and there's a reason. If you can only have one kind, this is the kind .....

\$ .25 \$ .75 \$2.00 \$6.00

✓ RYKEMAN. Considered by some the same as Corsican and by others even better .....

.25 .80 2.20 6.50

CORSICAN. One of the sweetest berries grown. Large plants, leaves and berries, fruit stems long and stiff. Very productive .....

.25 .80 2.20 6.50

THE BEST. Very large good quality .....

.30 .90 2.25 7.00

HARVEST KING. New. Mid-season, prolific..

.30 .80 2.00

MARSHAL This is considered the best quality berry there is, but not real heavy yielding.

Dark red ..... .30 .80 2.25 7.00

CHESAPEAKE. One of the best for late where it will do well. Fine quality. Nice plants....

.30 .80 2.25 7.00

Have tried to list the 7 kinds named above about in their order of ripening.

All kinds have perfect blossoms and can be set alone if desired.

### EVERBEARING STRAWBERRY PLANTS

MASTODON. The largest and best Fall bearing berry we have tried yet. Very sweet berries. Heavy yielding.

Set the plants this Spring, keep all blossoms pinched off until July and then thin the blossoms out 40% right through the rest of the season. You will then have good-sized berries of fine flavor right up to freezing weather and another crop the following Spring. Per Doz., 30c; per 100, \$2.00.

All prices quoted above are net at the farm. If you want your Strawberry Plants sent by Parcel Post add 8c per 25, 15c per 100, 20c per 200, 30c per 300; quantities over that should be sent Postage C. O. D. or by Express collect.

### Strawberry Plants in August, September and October

We will have about all the kinds listed and some new kinds as well for Summer and Fall setting, from our new bed. New plants, well rooted and true to name. Write or ask for Fall prices.

RASPBERRY PLANTS

CUTHBERT. One of the best for this section. Prolific, large, sweet berries. Makes plenty of plants. Per Doz., 75c; per 2 Doz., \$1.25; per 100, \$3.00.

LATHAM. New. One of the strongest and healthiest. Large berries. Per Doz., 80c; per 2 Doz., \$1.50; per 100, \$4.00.

ST. REGIS. Everbearing. The best everbearer yet found. Price, per Doz., 75c; per 2 Doz., \$1.25; per 100, \$3.00.

CUMBERLAND. The best Black Cap Raspberry. Large, firm, delicious. Nice plants. Per Doz., 80c; per 2 Doz., \$1.50; per 100, \$4.00.

BLACKBERRY PLANTS

MARY WASHINGTON. Two-year-old roots. These will make large shoots, ready to cut next year. Stock limited .....	.30	2.00	16.00

Set out Sterling Grown Roots this year, about six inches below the surface of the ground, cover with two inches of soil. As the plants grow up fill trench with well rotted manure and more soil, and some good garden fertilizer on top of that. Do not put fertilizer next to any kind of root or plant if you want them to live.

If properly taken care of you can cut your bed the following Spring until June 1st, letting it grow up after that and giving it more manure and fertilizer. The second year from setting cut till July 1st, always feeding it well after letting it grow up.

Sulfocide is a powerful summer fungicide—at low cost—for fruits, vegetables and flowers. When sprayed, it quickly decomposes, leaving a film of sulfur so fine as to be almost invisible except where drops accumulate.

1 Qt. makes 50 Gals. of spray.  
1 Gal. makes 200 Gals. of spray.

Add ½ Lb. Kayso to each 50 Gals. of spray, putting it in the tank first.
